

Shaun in the City Condition Report

The following Shaun in the City condition report is based on opinions constructed from our evaluation of the lots. We strongly recommend that potential buyers have previously viewed the items that they are interested in before bidding at auction. All sculptures have been on display in a public arts trail in London and Bristol throughout the Summer of 2015. Although strong and robust, these sculptures are not new pieces of art, and have been seen and touched by millions of people in public spaces prior to auction. Please bear this information in mind when reading the condition report, which details significant restoration and repair work. If you have any questions about the particular condition of a lot, please email lauren@grandappeal.org.uk or call 0117 9273888. Thank you for your interest in our charity auction.

Lot Number	Sculpture Name	Condition
